

Subsidy Program for Lease

The Subsidy Program for Lease is applied when an enterprise, which operates business designated by the nation or the local government for a certain purpose, introduces specified machineries or equipments through lease contracts. The nation and the local government subsidize a part of the lease payments.

	Subsidy Program for Leases on Development of Farmers and Management	Subsidy Program for Leases on Equipments for Sophisticating Supply of Lumbers	Subsidy Program for Leases on Equipments for Forestry	Subsidy Program for Leases on Equipments for Cultured Laver	Subsidy Program for leased 'Eco-cute', a CO ₂ refrigerant heat pump water heater
Purpose	To aid farmers or unions that reform, enlarge, or sophisticate the farm management to introduce machines or facilities through leases	<ol style="list-style-type: none"> To promote the sophisticated supply of products in light of 'Act on the Promotion of High Quality Guarantee of Residences.' To promote environmental measures such as reducing dioxin emissions. 	To encourage the units which are engaged in forestry to try "low cost-production", supporting introduction of high-qualified equipments for forestry by means of leases.	<ol style="list-style-type: none"> To promote the management to be more stable, subsidizing those who introduce leased equipments necessary for cost-savings or for improving quality. To promote "the plan on structural reform of laver culture". 	To promote introduction of a CO ₂ refrigerant heat pump water heater, which is called 'Eco-cute' for the purpose of leveling off the demands for electricity.
	<p>◆Type: To Aid Certificated Farmers</p> <ol style="list-style-type: none"> Certified Farmers based on Law for Strengthening the Infrastructure for Agricultural Management Those who attempt to have young people engaged in agriculture 	<p>◆Conditions</p> <p>Those, who are engaged in any business below, make plans to improve supplying capacity of community-based resources and to maintain/upgrade the quality of products. It is sure for them to achieve their plans.</p>	<p>◆Conditions</p> <p>Applicants are to meet all the conditions regulated by the guideline, regarding lease term, clauses of lease contracts</p>	<p>◆Conditions</p> <ol style="list-style-type: none"> To be included in the plan on structural reform of laver culture. To meet one of the conditions on scope written below. 	<p>◆Conditions</p> <p>Applicants are to meet all the conditions regulated by the guideline, regarding lease term, which is at least 6 years, procedure of application etc.</p>
Scope	<p>◆Type: To Aid Community-based Farmers</p> <p>◆Scope</p> <p>The farmers or corporations written below, who make a contract with local municipalities for extending the farmland in the region more than a certain area.</p> <ol style="list-style-type: none"> Certified Farmers Specified Agricultural Corporations Specified Agricultural Unions Agricultural Service Business Units 	<p>◆ Scope</p> <ol style="list-style-type: none"> Initial processing Lumbering Lumber sales (including timber market or timber center) Precut processing Wooden building operations Composite production of lumber 	<p>◆Scope</p> <ol style="list-style-type: none"> Those who are engaged in forestry and material-production of lumber The unions or prefectural federation for forestry units associated by those who engaged in forestry and material-production of lumber Local public entities Entities owned by local public entities Those whose articles of association include the clause for being engaged in forestry or material-production of lumber excepting 1 to 5 	<p>◆Conditions for applicants</p> <ol style="list-style-type: none"> 20% or more of cost savings, which is equal to cost savings by 2 or more fisheries, is expected. 2 or more fisheries, or fisheries over the district introduce machines for substance-detection necessary for product-management 15% or more of additional production amount or the amount per an employee is expected to rise, improving the quality, and it is on the condition that 'the improvement plan' is approved 	<p>◆Scope</p> <p>Those who introduce specified 'Eco-cute' to residences or buildings and meet all the conditions regulated by the guideline.</p>
Intended Equipment	<p>◆Type: To Aid Community-based Farmers - emergent support for farmers</p>	<p>◆Intended Equipments</p> <p>Incinerator, Automatic sorting machine for raw timbers, Lumbering</p>	<p>◆Intended Equipments</p> <p>High-qualified machines for forestry Harvester, Forwarding machine,</p>	<p>◆Intended Equipments</p> <p>Automatic dryer for laver, Tank, Washing machine for laver, Substance-removal</p>	<p>◆Intended Equipments</p> <p>'Eco-cutes' which use CO₂ refrigerant, and are specified by Japan Electro-Heat Center,</p>

◆ Scope

1. Specified Agricultural Corporations
2. Specified Agricultural Unions

◆ Conditions

1. The unions, written above, are to make a contract with local municipalities for Community-based plan and they are expected to improve the management.
2. It is expected that the corporations or units, written above, extend the farmland in the region more than a certain area.
3. The corporations or units, written above, are engaged in their production adjustment and they are on “the list regarding roles of rice fields”.
4. The corporations or units, written above, are affiliated to “the plan for making stable the income from farmers’ management”.

unit with high efficiency, Desiccating unit for large-sized timbers CAD/CAM unit, Automatic packaging and binding unit for timbers, Producing unit for bonded wood, Marking device, Grading machine, Automatic sorting unit for products, Boiler for wood chip, Generation facilities with wood biomass, Production facilities for wood pellet

Lumber-skidding machine, Lumber-processing machine, etc., and the other machines or equipments certified by the council

machine, Pomp, Cutter, Machine for aging, Compounding machine, Machine for density-adjustment, Bubble-removal machine, Washing machine for sponge, Humidity-controller, Tank for heavy oil, Tank for seawater, Inversing device, Device for dirt-removal, Non-drying unit, Arranging machine, Substance-detection machine, Machine for shape-inspection, Viewing-conveyer, Automatic bending machine, Automatic uniting machine, Accumulation machine, Belt conveyer, Ship armed with high-qualified trimming machine

based on the manufacturers’ applications.

1. “Eco-cute” for family use
2. “Eco-cute” for Business use”
